

## We are looking for a 1 year Leave Replacement Earth Science Teacher!

We are a small, vibrant multicultural community (over 60 nationalities and 40 languages spoken) serving multilingual students who are new learners of English.

Our school mission is: *To develop in each of our new learners of English the linguistic, cognitive and cultural skills necessary for informed and creative participation in our diverse society.* We are part of the New York Performance Standards Consortium and The International Network for Public Schools.

One Year Leave Replacement Earth Science Teacher/ ENL teacher willing to teach Earth Science

**We are looking for a qualified candidate with an Earth Science License to teach our Multilingual Learners (MLL's). This teacher may hold an ENL license and be willing to teach Earth Science Curriculum.**

**Strong applicants for this teaching position will demonstrate the following abilities:**

- **Design and teach curricula to heterogeneous classes of English language learners of many academic levels, languages, and cultures.**
- **Create project-based curricula and use performance-based assessment.**
- **Use inquiry-based approach to teach interdisciplinary classes.**
- **Work with multiple teams of teachers of various disciplines to plan content and language instruction and create a supportive community for our diverse students. Also, work collaboratively with other teachers to design curricula and assessments, and to support each other in improving teaching practices.**
- **Teach community building, identity development, reflective writing, and interest exploration.**
- **Willingness to participate in developing and implementing Work Based Learning Opportunities**

**Must have a willingness to incorporate literacy skills and learn the Internationals model for teaching MLL's. An interest in technology and experience with MLL's is a plus.**
